

Large Natural on Fox, Cooke

Mt Fox
Cooke City
12/2/2022
Code
HS-N-R3-D3-O
Elevation
11000
Aspect
SE
Latitude
45.12120
Longitude
-109.93000
Notes

From IG 12/3: Confirming more of what you saw, lots of large natural avalanches up high. Most notable was this massive [slide](#) on fox, looks to have broke 2-6' deep and over 1000' wide. Couldn't quite see the toe from our tour but it looked to have run over 1000' vertical. Never have seen one so large on Fox...
